Commissioner Van Diver Declares All Campaign Money Must Be Returned Within Next Thirty Days—Wants New Officers Placed in Charge.

Jefferson City, Oct. 7.—In an extended letter to J. A. McCall, president of the New York Life, Superintendent of Insurance W. D. Van Diver states his department holds that all money taken from the New York Life's treasury, for any political campaign funds, for legislative agents or lobbyists, for aiding and defeating legislation were taken without warrant of law or morals, and insists all funds so used and particularly the sum of \$148,702, which McCall confessed to having contributed to the republican campaign funds for 1896, 1900 and 1904 shall be replaced within the treasury of the company within the next 30 days, otherwise Van Diver will commence proceedings to cancel or revoke the license of the company doing business in Missouri.

Van Diver also takes exception to the large payments to Judge Hamilton, the occupancy of the costly real estate of the company by McCall's relatives at a low rental, disproportionate expense of the company in its rush for new business, all of which indicates the grossest impropriety and recklessness in the management of the company's affairs. Therefore he insists that a new president, vice president, and finance committee, be put in charge as soon as the board of directors are able to effect the change.

PURER AND BETTER GOODS

Bureau of Chemistry's European Investigation Results in Good.

Washington, Oct. 7.—Secretary Wilson of the department of agriculture has received the report of Dr. Wiley, chief of the bureau of chemistry, concerning his investigation in Europe for the production of food products for export to the United States. He concludes his report with this statement:

"Everywhere I found manufacturers and merchants are intensely interested in the inspection laws of this country and in most cases they are endeavoring to the very best of their ability to conform to the provisions of the law.

"The law and its regulations and enforcement have had a most salutary effect upon trade regulations. We are getting in this country now better and purer goods, and there will not be as expected, a diminution in the volume

of trade, but on the contrary a large increase.

"Our consumers being sure of the purity and character of these products will be more ready to purchase our food products for this reason. Thus commerce and trade between us and foreign countries will be facilitated."

Witnesses Must Now Appear and Testify and Produce in Court the Books of the Company—May Defy Court and Disobey Order.

St. Paul, Oct. 7.—Judge Vandeventer, in the United States circuit court, late this afternoon decided that the appeal would not lie against the decision handed down last Tuesday, citing members of the General Paper Company to answer questions and produce the books called for by the government in its suit for injunction against the so-called paper trust.

The next step in the proceedings will be for the witnesses named, to appear before Examiner Taylor Thursday. It was intimated by their attorneys today that these witnesses will refuse to obey the order directing them to testify. They can then be punished for contempt, probably by imposition of a nominal fine. From this order of the court an appeal will then be taken to the supreme court, where the question of their testimony will be finally adjudicated.

French Press is Better Toward Germany.

The Matin Reviews Circumstances in Connection With Delcasse's Retirement From the Foreign Office—France Warned Not to Yield.

Paris, Oct. 7.—A marked reaction in public sentiment has followed the Franco-German accord, concerning the Morocco conference. Many of the leading newspapers are renewing the campaign criticism against Germany. This is due principally to Chancellor Von Buelow's open statements following the Russo-German approachment. The Matin reviews the circumstances of Delcasse's retirement from the foreign office, alleging that a number of sensational events occurred in connection with the change. Delcasse is represented making a speech in the ministry warning them if they yielded to German demands concerning Moroccan ministry, that they would thereafter always be subject to German dictation.

The Matin further asserts that Great Britain has conveyed definite assurances to France, her readiness to mobilize a British fleet with the view of adopting aggressive measures, if Germany attacked France.
